

FIRE DEPARTMENT LOAN FUND COMMITTEE

The Fire Department Loan Fund Committee was established to study the needs of rural volunteer fire departments. The Dubuque County Board of Supervisors established a fund, using County Government Assistance funds under authority of Iowa Code Chapter 334A, to be loaned, interest-free, to rural Dubuque County Fire Departments for the purchase of fire protection and life support equipment. The committee reports to the Board of Supervisors with recommendations on each loan request. Each recommendation shall demonstrate the ability of the fire department to repay the loan in full and on time. Members shall serve four-year terms.
